Dates To Remember

Sept. 7 — Labor Day — PARISH OFFICE CLOSED — Mass at 8:00 a.m. only
Sept. 11 — Patriot Day
Sept. 12-13 — Seed Wheat blessing at all Masses
Sept. 13 — Family Life sponsored Card Party for Grandparents Day
Sept. 20 — Catechetical Sunday — "Brunch on the Plaza"
Sept. 25-26 — VHS Homecoming
Sept. 26 — Alumni Mass 4:00 p.m. (No 5:00 p.m. Mass)

He summoned the crowd again and said to them, " ... From within people, from their hearts, come evil thoughts, unchastity, theft, murder, adultery, greed, malice, deceit, licentiousness, envy, blasphemy, arrogance, folly. All these evils come from within and they defile."

(from the Holy Gospel according to John 6:60-69)

We continue with Pope Francis' reflections on how technology is both a blessing and problem in our care of the environment.

102. *Technology has remedied countless evils which used to harm and limit human beings. How can we not feel gratitude and appreciation for this progress, especially in the fields of medicine, engineering, and communications?*

104. *It must also be recognized that nuclear energy, biotechnology, and information technology have given those with the knowledge, and the economic resources to use them, a dominance over the entire world. We need but think of the nuclear bombs to say nothing of the increasingly deadly arsenal of weapons available today. In whose hands does all this power lie? It is extremely risky for a small part of humanity to have it.*

The Technology Paradigm

105. *There is a tendency to believe that every increase in power means an increase of "progress" as if goodness and truth automatically flow from technological and economic power. Modern man has not been trained to use power well because our technological development has not been accompanied by a development in human responsibility, values, and conscience. We have superficial mechanisms, but we cannot claim to have a sound ethics, a culture and spirituality capable of setting limits and teaching self-restraint.*

107. *It can be said that many problems of today's world stem from the tendency to make the method and aims of science and technology a paradigm which shapes the lives of individuals and society. The effects of imposing this model on human and social life, are seen in the deterioration of the environment. Technological products are not neutral, for they create a framework which conditions lifestyles and shaping social possibilities along the lines dictated by the interests of certain powerful groups. Decisions which may seem purely instrumental are in reality decisions about the kind of society we want to build.*

The Dominance of Technology

109. *The technocratic paradigm also tends to dominate economic and political life. The economy accepts every advance in technology with a view to profit, without concern for its potentially negative impact on human beings. The lessons of the global financial crisis have not been assimilated, and we are learning all too slowly the lessons of environmental deterioration. Some maintain that current economics and technology will solve all environmental problems, that global hunger and poverty will be resolved by market growth. We fail to see the roots of our present failures, which have to do with the direction, goals, meaning, and social implications of technological and economic growth.*

112. *Yet we can broaden our vision. We have the freedom needed to limit and direct technology; we can put it at the service of another type of progress, one which is healthier, more human, more social. An authentic humanity, seems to dwell in the midst of our technological culture, almost unnoticed, seeping gently beneath a closed door. Will the promise last, with all that is authentic rising up in stubborn resistance?*

Next week we will conclude our presentation of Pope Francis' encyclical **Laudato Si** with his final wish and prayer for our efforts to care for our Sister Earth.

The unchanging Catholic Teaching on Abortion

by Fr. John Trigilio, PhD, ThD.

Clear and concise Catholic Moral guidance on the issue of abortion

Q. Is abortion always wrong and gravely sinful?

A. Abortion is the direct and intentional killing of an unviable or viable fetus any time between conception and full birth. This destruction of unborn human life, whether it occur inside or outside the mother's womb, is always considered an unjust killing of an innocent human person and can never be tolerated or condoned for any reason whatsoever. Abortion is always the sin of murder no matter who does it or how it has been performed.

Human life begins at conception. Once the female egg is fertilized by the male sperm, a distinct and separate human being exists, body and soul. The DNA of the embryo or fetus is similar to the mother's but is also distinct. It is also human DNA; not animal. It is not a clone of the mother, either. This is why killing the unborn is a grave evil since he or she is their own person, so innocent and so vulnerable and defenseless.

Pharaoh committed the heinous crime of murdering the infant sons of the Hebrews thinking he would prevent the Exodus. Moses was spared and he grew up to save his people. King Herod committed a similar atrocity when he ordered the slaying of the newborn males at Christmas time thinking he could eliminate the Savior and the Messiah. Both rulers were dead wrong. Abortion is no different, in that innocent lives are also unjustly taken.

Evil means can never be justified, so killing an innocent unborn child can never be tolerated, even if it allegedly is to save the life of the mother. In reality, there is never any medical condition which requires the intentional killing of the unborn baby in order to save the mother. The right to life is the most fundamental of all rights. Even if a result of rape or incest, two wrongs do not make a right. The unborn child has inalienable rights the moment he or she is created in the womb.

Denying the unborn child's right to life is no different than what the Nazis did to Jews in the death camps. Although abortion may be legal, that does not make it moral or right. Slavery

and racial segregation were legal at one time and required people of good faith to speak up and speak out against these social evils. Laws had to be changed. Likewise, Roe v. Wade which legalized abortion is as immoral as the Dred Scott decision supporting the owning of slaves and treating them as non-citizens and even as non-persons. The Nazi Nuremberg Laws of the 1930's legalized anti-Semitism and authorized the confiscation of Jewish property and the deportation of millions of Jews to concentration and extermination camps. It was very legal but also very immoral and sinful.

In their efforts to justify abortion, pro-choice people tout freedom, but no choice and no freedom are offered to the unborn baby. Calling the unborn a fetus, embryo, or zygote, does not negate his or her humanity or person-hood. These words are simply terms to designate the unborn human life and varying stages of development, just as we use terms to designate human life and the stages after birth such as infant, toddler and child. To state otherwise is nothing more than a play on words.

* * * * *

Practical application:

Regarding those who have had an abortion and/or who have performed an abortion, God and the Church will always forgive the humble and contrite sinner who recognizes his or her sin and asks for forgiveness through the sacrament of confession. However, God and the Church will *never* condone the sin!

It is a moral obligation for every Catholic to oppose abortion and to do everything possible, through peaceful means, to stop the killing of unborn children. To do this, it is vital for Catholics to unite and in ONE voice defend the defenseless and halt the modern massacre of the innocents.

If you have not done so already, go to http://www.catholicaction.org/defund_pp to sign petition to US Congress to defund Planned Parenthood. This is a crucial step toward ending abortion in our beloved country.

PLENARY INDULGENCE GIVEN WHEN VISITING A BASILICA

The faithful may obtain a plenary indulgence by visiting a minor basilica. An indulgence is a remission before God of the temporal punishment for a previously forgiven sin. To obtain a plenary indulgence during a pilgrimage to a basilica, one must participate in any sacred rite or recite the Lord's Prayer or the profession of faith while there, then go to Confession and Communion and pray for the intention of the pope. ~taken from *The Register*, the Salina Diocese newspaper
